**H**ealth Talent International ministry has been working in what is known as the “coastal area” of Western Guatemala since 1990. We support a network of clinics in the Suchitepequez Department in villages with such picturesque names as Flores Costa Cuca, San Basilio, Palmira, and San Andres Villaseca. The majority of people in this area are of Mayan descent and have very little access to health care. The care is provided by Dr. Walter Sierra and Dr. David Lux and they make every effort to meet the wide range of patient needs, including physical, mental, social and spiritual. During the course of their daily clinics, they also identify patients in need of surgery.

**C**linica Ezell serves as our point of operation for all of our surgical teams. The dormitory houses all the visiting teams, and the surgical clinics are conducted here. The clinic is also used for health promoter training and community development classes.
